

AUTO FEEDING SYSTEM VINYL CUTTER

SG-CP1400C321A1-FR

- Professional R & D, link with various data providers;
- Integrated pinch roller, suit for long-distance film running;
- Double-row paper holder with nylon baffle, easy to fetch the material;
- Large capacity mainboard memory, no more interruption of data transmission.

High
compatibility

Integrated
pinch roller

PRODUCT PARAMETERS:

Model name	SG-CP1400C321A1-FR
Maximum sheet size	1400mm
Maximum cutting size	1250mm
Minimum cutting character	About 5mm2 (Depend on variable material and graphics)
Positioning sensor type	CCD
Control panel	4.3 inch capacitive touch with keys
Mechanical resolution	0.02mm
Repeat precision	≤0.05mm
Maximum linear cutting speed	1200
Maximum cutting force	900
Cutting control system	DC Servo
Motor speed	0-3500RPM
Drive mode	Diffuse reflection photoelectric sensor
Maximum diameter of paper receiving roll	300mm
Maximum diameter of paper feed roll	300mm
Minimum paper tube inner diameter	85mm
Receiving and delivering paper rack outline dimensions	1490*790*780mm

Software and compatibility

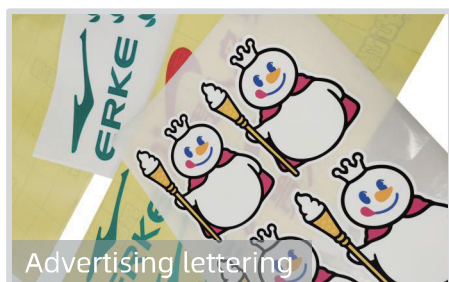

Connectivity	USB , WiFi, U disk , Interface
Software and compatibility	Cutstudio software, Corel Draw/ Illustrator Plug-in

Power and working environment requirements

Power supply	100VAC-240VAC, 50/60Hz
Power	Maximum 150W
Tripod	Standard
Operation environment	Temperature +5°C to +35 °C (Fahrenheit 41-95), Humidity 30% -75% (Non-condensing)

This parameter is subject to change without prior notice. The company reserves the right of final interpretation

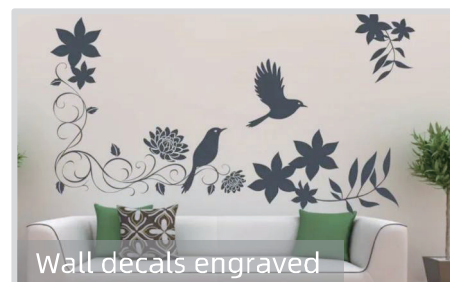

APPLICATION DISPLAY :

Advertising lettering

Paper cardboard full cut

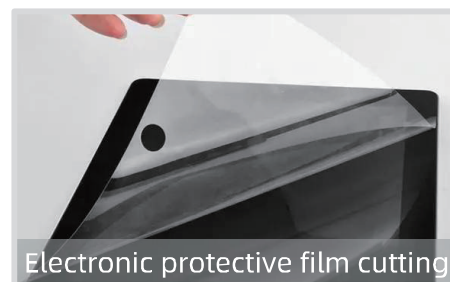

Wall decals engraved

Clothing and film for car

Thermal transfer engraving film

Electronic protective film cutting
